## PRODUCT FEATURES

- With OEKO-TEX certified special technique that does not sweat, contain bacteria and leave no traces. It is produced from Madaline microfilament fabric
- Anti Bacterial Protection
- Bacterial Filtration Efficiency (BFE) is Greater Than 95%
- Hygienic Tissue- Not Allergen Does not sweat like Nano Masks. It provides spacious use in hot summer months. With its sensitive surface, soft texture and fabric quality, it does not irritate the skin.
- Water Repellent Feature Thanks to the water repellent feature of the fabric, it does not take the droplets into the mask and protects from contamination.
- Moisture Management and Quick Drying
- Economic
- Abrasion Resistant for a Long Period It protects its color for a long time against sun light. You can use it safely in sunlight.
- Breathable and Dustproof Thanks to its Infinite Filament Structure
- Highest Degree of Protection Against UV UV Absorption; Very high degree of UV protection. It is certified by UV Label Grade 80 according to UV Standard 801.
- Washable - Multiple Usage Advantage It is recommended to wash it with mild detergent or soap. Washing via hand or washing machine is possible. The water temperature should be minimum 30° and maximum 60°. Do not use softener and bleach. Thanks to its fast drying advantage, it can be washed in the evening and used in the morning.
- Transparent and Observable Package Design Without Opening
- It is Made of Elastic Fabric that Can Fit on Any Face. It has a Standard Size
